DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, drawn to a structure of a liquid crystal display device in which the first insulating layer having an opening that exposes a portion of the gate line, and the gate pad electrode electrically contacts the exposed portion of the gate line, classified in class 349, subclass 138.
 - II. Claims 6-20, drawn to a structure of a liquid crystal display device and a fabricating method of a liquid crystal display device in which the passivation layer having a drain contact hole and a data pad contact hole, and the gate insulating layer having a gate pad contact hole, classified in class 349, subclass 43.
2. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the passivation layer having a drain contact hole and a data pad contact hole, and the gate insulating layer having a gate pad contact hole. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2871

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Qi whose telephone number is (703) 308-6213.

The examiner can normally be reached on 349.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Sikes can be reached on (703) 308-4842.
